

18-361 RFID Antenna

Designed to integrate seamlessly into RFID ecosystems, it enables real-time tracking, inventory accuracy, and actionable insights to improve operations and asset protection.

KEY BENEFITS

- UHF RFID antenna, LHCP
- Very low VSWR in all frequency range
- VESA holder mount 100x100 (VESA not included)
- Real-time visibility and improved inventory accuracy with consistent, high read rates
- Faster operations through automated data capture
- Scalable deployment from single locations to enterprise rollouts
- Seamless integration with existing RFID platforms and infrastructure

SPECIFICATIONS

- Product #: 516046
- Length: 9.65"
- Width: 9.65"
- Thickness: 0.79
- Weight: 1.79 lb
